SQUARE FOOTAGE

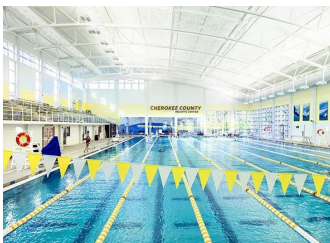

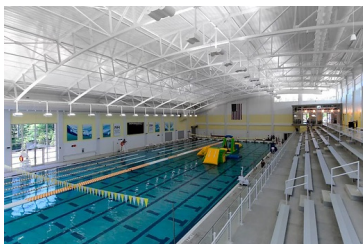

30,000+ sf outdoor / 10,000+ sf indoor

START/COMPLETION

04/2012 – 04/2013

DESCRIPTION

Fast track construction; overcoming a 2-month delay due to massive rock that had to be excavated by GC (extended work shifts around the clock to come in on time and still came in on budget). ADS managed all construction aspects of pools, pool mechanical systems. Two indoor competition pools – one 50 meter and one 25 meter. 7859sf outdoor pool with play features. Outdoor 8ft wide lazy river and 2 slides. Consists of over 20,000sf of water and over 10,000sf of decking. Features a Neptune Benson Regenerative Filtration System.

"Overall, I can certainly summarize the work by Aqua Design as outstanding!! The work and final product, and your continued assistance under our maintenance contract, AND especially the people of your organization, were at ALL times most helpful and explaining and guiding us through the entire project.

We are very pleased and happy to offer our recommendation of Aqua Design to others."

Bill Echols, AIA – Cherokee County Director of Capital Projects
